Construction Update

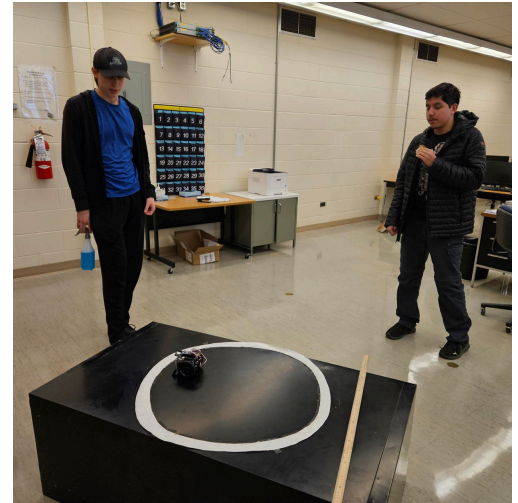

The students in Construction 20 have made big strides these last few weeks on the shed project for Dorie's House. Since the last newsletter, where we saw the walls being raised, the class has finished framing the walls, roof, and installing the shingles. In the classroom the students have been learning about the many different exterior finishes for homes, as well as the importance of getting them installed correctly to keep a home safe from the elements. The build process is almost complete, and we look forward to seeing the sheds moved out and "handing the keys over" to Dorie's House.

ROBOTICS CLUB

Good luck to our 2 teams competing at Robot Rumble in Saskatoon at Sask Polytech on May 2. They will be competing against students from all over the province. Robotics will start back up for any student interested again in the fall!

BUSINESS CLUB

A huge thank-you to Larry Kielo and Great Plains College for hosting our Business Club students for a case competition experience on Thursday, April 25. Thank-you to the judges who took time out of their busy days and provided feedback to our students on their cases. Judges: Ken Duncalfe (Chinook School Board Trustee & Entrepreneur), Cindy Lowe (Sask DLC Finance Teacher), Brad Mahon (President GPC), Nicole Friesen (Self Employed) and Chad Mcleod (Mercator Financial). Thank-you to Mercator Financial, Whitecap Resources Inc. and South West Terminal for sponsoring our club. The business club will meet on Thursday, May 2 for a regular meeting.

High School Art Show at the The West Wing Gallery

SCCHS Artists submitted over 150 student art pieces to the High School Art Show at The West Wing Gallery!
The Exhibition is open to the public and will be showing from May 3rd until June 9th, 2024.

610 BOOKS

CHECKED OUT IN APRIL

PRINTING HACKS TO SAVE TREES

Help save paper and save the trees by following these printing habits.

- Review your document before printing.
Before you click print, check your document for typos, missing information, or mistakes to avoid printing it twice.
- Print double-sided when possible.
Click on More Settings and check the Print on both sides option to use both sides of a sheet of paper and reduce your paper consumption in half.
- Use the page selection option.
Print only the pages you need by using the custom page selection option in the printing settings.
- Check the last page.
Make sure you don't have a blank page at the end of your document. If you can't delete it, use the page selection settings to exclude it from your printing job.
- Print individual pages.
If you need to fix any mistakes, don't print the whole document again. Instead, use the custom page selection option to print individual pages.
- Reuse and recycle paper.
Reuse paper that has only been printed on one side. When you are done with it, place it in one of the many recycling bins across the school.

NEW BOOKS
